Sir & N E N

Inclosed you will find a gold piece for the A. M. A. my mite from this far off land, where the Sun rises after it has shone upon you for three hours

We have been cut off from the world by floods & ice & many of our mails destroyed, the last from your rooms was the Sept Magazines, but we get papers by Express. & hear from you occasionally, in that way such things as that you have sent a Missionary to the contrabands, I hope that you will be supplyed with means to send as many as will be usefull, This will be preeminently the American Missionary field for a long time to come. May the Lord bless the effort to the salvation of the Black & White population. We tremble with anxiety when a Steamer, or an overland mail arrives, not knowing what will be the news from the War

Mrs Williams
Oregon

Will our Nation never let Gods "people go free" until the last plague has been poured upon the land, & there will not be a house where there is not one dead Is Mr Lincoln so afraid of altering his word that no circumstances can excuse him for altering his mind, if so I would advise him to study Jonah, who after threatning the destruction of Nineva, was not willing that God should alter his mind, & spare the City, because he feared to be accused of falsehood

The two pictures that were in Rochester have been sent to N York you have four now, I hope you can sell them for something I think they would sell at the annual meeting.

Yours with Respect

Mr Lewis Tappan

Dear Sir,

I rec'd yours of April 14 & thank you for it, & for the biography, I found it very interesting, I have lent it. The news this morning by the Ocean Steamer is that Morgan is captured, if we could get Jeff Davis & Simms, I think I should be willing to let the rest run, The Lord who counts the hairs of our heads, knows how many we have murdered of his dark children, in the middle passage, on the plantations & in the city's, & if he should take life for life, for all such since we declared ourselves a free nation, there is a fearful account get to balance, but I trust he will hear prayer & give us freedom & peace, & then will come the Mormon & temperance questions I hope we may have bloodless victories in these.

Do get the subject of mobs better understood the newspapers must come out an the subject, when there is no mob raging, is the time to discuss the subject, Napolean's plan to kill all you can the first fire is humanity, & let it be done as soon as possible I suppose that there was not one in twenty in the mob subject to draft, O we are so anxious to hear from Charleston all we know is that we have Morris's Island,

When I read Clark & Lewis' travels in this Country, I thought what folly to travel & make discoveries in such a northern wilderness, no one will ever live there, I little thought I should ascend the Columbia river 230 miles in elegant steamers & then fifteen miles farther on a railroad there to find splended steamers to take one hundreds of miles further, but so it is, In a late trip to Des Chutes I found all the waiters on the boats above the Cascades Colored men, I tried to get up an interest for the contrebands

they all talked favorable but I do not know what the result will be, but I forget that I am taking your valuable time

Please find five dollars inclosed two $ 2,50, & give credit in your American Missionary to Oregon I want to see our State among your contributors if it is for a small sum.

The $5.00 inclosed is for the Contrabands

The immigration from Missouri is so great we fear we shall be out voted at the next election, there are a great many secesh here

Enclosed please find $5.00 in currency, donation from Mrs M. W. Coe, Dalles, Wasco County, Oregon for the Freedmen.

I mentioned in a letter I think it was addressed to Mr L Pappan that I had tried to get up an interest for the Freedmen among the employes (colored) on the Boats on the upper Columbia, I did not hear from them & I wrote to Mr Condon the Congregational Minister at the Dalles to make enquiries he found that they had collected $95.00 & said they had sent it to Mr ~~Lewis Pappa~~ Lewis Pappan, As I have seen no acknowledgement of it, I fear that it has never been sent, or has miscarried.

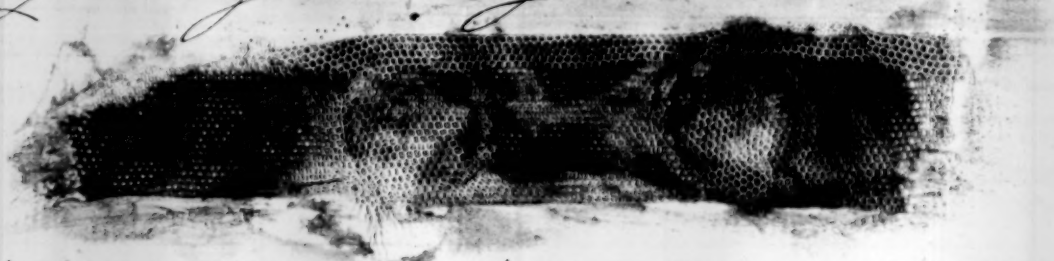
Dear Sir,

I enclosed you address $2,50, about the last of Sept for the Freedmen about the middle of this month I enclosed two $2,50, $5,00 for the same purpose, in this letter please find $5,00 making in the three letters twelve dollars fifty cents I hope these small sums will reach you, for I feel that you have need of every cent you can get



I give to this object in preference to any other at present, as I feel that so few care for them, Can not you get some of your friends, who keep a a book store, or dry goods store in some country village where pictures are not so common as in N York, to take those four pictures that you have & expose them for sale, better sell them for what they will fetch, than keep them, you will never want money more than now.

Dear Bro.

Least night I wrote you stating that I thought the $100 sent me in Dec. 63 belonged ~~to the~~ in part to the previous year but upon more mature reflection I am of the opinion that the $100 belonged exclusively to the preceding year.

It may be that I am mistaken in regard to this

Now would ~~confer~~ a great favor upon me if you would look over the whole amount of both Debt and Credit from the fall of of 1859 Sept. 6. to Dec. 6. 1864 — and send me the result of the investigation.

Dear Bro

Yours of Dec. 19. 1864 has just come to hand giving my accounts with the A.M.A. containing a Draft also of $82.50
I have time to write no more at present as I am to start on horse back in a few minutes and will not return for about two weeks — thought perhaps I ought to acknowledge the reception of the Draft before I left thanking you for the favor in giving my accounts with the Association and for the Draft as it was much needed.
The accounts with the A. are all right I think — if upon examination they are found to contain any errors I will write you about it.

Dear Bro.

I received your check which you sent me Dec. 19, 1864 and wrote you upon its reception but telling you then that I did not have time to examine the account which you sent me but would write you hereafter about it.

I can see no error in the a/c but would like to know if the Draft covers the time from Sept. 6, 1864 to Dec. 6, 1864 or to Dec. 19 1864 as you have dated your communication. In other words whether the draft or check covers any portion of my sallary from Sept. 6, 1864 to Sept 6, 1865 pay't 6 Sept 65

Thanks be to God Missouri is now free and for uttering sentiments of freedom I shall not be called to flee to some free state again for protection from the slaveholders tyranny

We are looking for a large emigration here in the Spring from the eastern state.

If I knew that the Association would publish in the Missionary a short article founded mostly upon statistics upon the Election in this county — the amount of public school fund we have here and two or three items I would prepare an article for the paper.

Please find enclosed ten ($10) dollars, which appropriate towards sustaining some religious teacher among the Blacks of this County (Freedmen) I hope by a little effort to lead my church to sustain at least one teacher according to the plan of Mr Brown who has lately addressed us in return to the Freedmen. I understand that $120. will sustain a teacher. if so please let us receive

a circular from you, if you have any to that effect. Please send me the American Missionary if Rev Mr Brown has not already given you my name for it.

Rev Wm B. Brown

Dear Brother

In writing you at this time more as a friendly letter than as a report of my doings as Agent M. Association. I completed my three score years yesterday if ...ly Bible record is correct. How strange that in the first year ten years allotted to human life I should make my first as an active agent in a benevolent enterprise! never before having been in a like enterprise

I may here say, I have found more difficulty in so arranging as to give my whole time to it, than I anticipated when I say I have not been wholly idle I have met and addressed the people different places. In Forest Grove we have enough pledged to support teacher a year and shall I think secure enough for another if not Hillsborough. I feel certain of one if not two at Times Chapel they of one if not more. From conversation with prominent men in I think three or four individuals and Co firms will be found each support one teacher

My success and the hearty cordiality with which the cause ...edmen is ~~recep~~ responded to surpasses my most sanguine

expectations you may expect quite a large addition to your treasury
Oregon if in the good Providence of God I or some one else whose
is in the ~~cause~~ work be permitted to plead their cause

So far as my knowledge extends I think there
is pretty general among the religious and intelligent two
people that the cause of the freedmen is the great cause of
No; have I failed to ~~x~~ ~~urge~~ urge upon the people that these cla
be fairly met and justly disposed of: and that it will no
shuffle it off if we would escape the scenes of the past four years

My heart is in the work and I believe from this
I produce an impression wherever I plead for the freedmen.

I will write you or some of the officers of the so
as I have some thing more definite to write about. Mr Ladd
has promised to remit all monies I may collect. You may have
appointed for the first ten of Forest Grove. The pay will be re
quarterly installments or monthly if desired. It is understood the
($120.00) one hundred and twenty dollars in Currency

Please send me reading matter connected with
of your society, as soon as possible. There is a great call for them

Rev. M. E. Strieby

My Dear Brother

Your letter of Sept. 18 1865 was duely received. I have also received two packages of the publications of your society for which I am very thankful as they will aid me much in my work. I scatter them

You may be surprised that I have not more fully communicated with you and forwarded no remittances In answer to these I may say that I have not had much to say that would be interesting and my plan has been not so much to obtain funds immediately as to lay plans for a larger amount in the future. I have not taken up a single collection in any place where I have presented the cause. In every case the feeling has been so far as manifested, to raise enough to support ~~one~~ a teacher. As I informed you in my letter to Mr Brown we have raised here enough to support one and a half teachers at one hundred and twenty dollars a year and the money is being paid in as fast as it becomes due. I had been expecting that a teacher

would be assigned to the ten who had pledged themselves to the amount ~~the~~ Should a teacher be assigned to them he should direct his communications to Wilson Bowlby. A. D. Forest Grove. Oregon. I hope the teacher will be assigned as I pledged them that one would be on the authority of the Rev. W. B Brown. The same is the case in regard to Hillsboro' They have raised one hundred and twenty dollars and I am informed that the money is ready. and it would have been forwarded last week with other monies but for the inclemency of the weather. Should a teacher be assigned ~~to~~ for Hillsboro' direct to. William D. Hare. Hillsboro' Oregon.

These are the only places where I know for a certainty what amounts have been received. I am expecting every day communications ~~for~~ from other places informing me that the required sum has been raised or pledged

I have made no direct efforts in Portland or the Dalles. Nor have I travelled as much as I expected to when I entered upon this agency.

You will doubtless expect me to make some statements in regard to what the prospects are in this county There is apparently a great unwilling ness to hear any thing about the Negro. Many have in its worst form. Negro phobia

They think they have heard enough about the Negro.

I often get discouraged and ~~am~~ feel like giving up. And the only reason why I have not is I know if I do, all or nothing will be done here. As a warm friend of the Freed remarked to me You must not give it up. Hence I have thought it best to continue my agency and do what I can even if I did not receive any compensation for it more than my travelling expenses. It will keep the subject before the people to know that there is an agent in the field. It is necessary that there should be somebody in the field to gather the fruits of the seed already sown. One thing you may be assured of that whether I gather much or little my ~~expenses~~ agency will not be an expensive one to the Society

But I will submit the case of my agency to the action of the Society. I have received twenty dollars in currency from ~~two~~ individuals. As soon as the weather will admit, I shall visit Portland and forward what funds I have on hand. Mr. Cadle of Portland has kindly offered to remit whatever funds I may collect. You may expect ~~to~~ soon to hear from me more fully

With Kind regards

Your Truly

Resolved - That we have heard the statements of Rev Wm B. Brown from the General Association of New York respecting the work of the American Missionary Association among the Freedmen of our country with very great interest; that we regard God's gracious interposition in their behalf as a special call of providence to labor for their evangelization and enlightenment; and that we commend the American Missionary Association to our Churches as the suitable agency through which to contribute for that object.

Resolved - That the General Association of Oregon appoint a committee of five consisting of Chester N. Terry, Rev O. Dickinson, Rev P. S. Knight, A. Hutchinson and W. P. Abrams. to be in correspondence as an auxiliary with the parent society and to superintend the making of collections in this State to aid in carrying out its benevolent purposes among the freedmen.

I will forward No Second but the other may have failed to reach you I shall forward this by mail

I should have said more at the time of sending the first in relation to the amount by whom contributed

I will say ten dollars of the amount was given by the Rev George E Chandler of Mc Minville Yam Hill Co Forty Eight dollars by individuals, subscribing a dollar a month in the support a teacher, at Hillsboro Also one dollar by an individual at the same place The remaining amount by Subscribers for the same purpose at Heart Grove ~~I will add that~~ except ten dollars of ~~the above sum~~ which was paid by Rev Wm Golly at this place not as a monthly subscriber To the amount to

be credited to Forest Grove you may add my own subscription of a year, twelve dollars which is all I shall charge the society for what has been raised in Hillsboro & Fort Grove is at least for the present

I am rather inclined to act as a Free agent for the society & do what I can I think as soon as the travelling becomes so I can move about I shall make some effort in behalf of the Freedmen

As soon as I can collect more money I will forward it

Some years since I made a resolution that I would give one tenth of my income for Church & Benevolent purposes, and in making up my accounts for 1867, I find that I did not give quite as much as I should have given, by letting my net income for that year in leaves me in debt for church & Charitable objects $20.45 Cur., which reduced to currency gives about $30.00 - In casting about in my mind where I should donate that amount I have concluded that it will accomplish the most good to have it used in assisting to Educate and elevate the Freedmen in the South, and therefore send it to the Am. Missionary Assocn. to be applied in that way, - I send you in another envelope a P. O. Order for the Amount - Thirty Dollars - as it is just the Amount necessary for Life Membership fee. Bvt. Major Genl. O. O. Howard
Washington D.C.,
General.

I feel that you will pardon a stranger for encroaching for a few moments on your time; for I know that you have ever been ready for every "good word and work".

I wish to speak of the almost total lack of religious instruction in the army; more especially at military posts along the Pacific Coast, and on the interior frontier of our country; and of which your military experience may have apprised you.

Chaplains are not in high repute in the army, and besides their number is so limited, their services are generally at the large and more permanent posts; near the boundaries of civilization.

and religious influences, than are the mass of souls in the army. It seems to me that if our luxurious, but generous congregations, throughout the country, could know the extent of the devil's sway in the army, they would contribute liberally to sending a few earnest, discreet missionaries to labor, with the soldiers (and officers) at isolated posts in the interior. I believe that such persons either with or without the credence of Department Commanders; would be by most comdg officers of posts, with other officers, cordially received, and afforded every practicable facility, for holding services, and mingling with the men, for their moral and spiritual benefit. If one suitable person could, in the spirit of our dear Master, go through each military division or department, visiting for a week or two at a time each post: how much good might be done.

That such a work, - perhaps under the auspices of some Missionary association - is practicable, and would be productive

of Infinite Good, I am convinced; and knowing the influence you have with Christians, throughout our land, I have ventured to write, making these suggestions.

Please remember me kindly to your brother Charles when you see or write him. He will, I think, remember our visit to the Rail Road mission Sabbath School in Chicago more than two years ago. And when you, General, were so kindly enquired for, & your name mentioned with so much interest.

Very Respectfully
Your Obt. Servant.

Rev. L. P. Smith,

I am on my way to Nashville Tennessee, where I have long wished to go, without the least encouragement from any one, but God. "It's not in man that walketh to direct his steps." I felt cut to the quick when I received on your last, to think when I had served your Association for naught, after bearing my own expenses from home to N.Y. & back again. All I ever received was a $50 Dollar Bill which by strict economy in my expenses on my way South I saved, & that was got from my son, through my influence, as well as Draft of $25, which you received while I was there, also what my wife, & others from Eugene sent, was all through my influence. I have examined the Magazine found where Clothing was sent after I got home, where they promised me, & Terrible my Collecting Tour, was not an entire failure. The fruit has been sent you, & I trust will continue to be sent you from year to year, through that year's work. Please consider how much at different times

in money, & clothing together my wages you received. You did not engaged in half work as you was when I was there, this out, & that out. Last down but not forgotten! I have been trying to arouse the sympathies of our people in behalf of the Freedmen. I send you a Programme of all of our Sabbath Schools assembled at the Court House through my influence. The Programme is all of my arrangements, wrote out by my wife as I dictated. I employed one ~~one~~ of the best Choirs to lead. I sent all of the addresses & the 2 Letters, a great attendance was manifested. Six different Ministers there, I told what had been done, & what remained to be done, gave out special word before hand no collection would be ~~taken~~ taken. Fifty heard the news, then wished I spoke before when out, & gave respect. Last Sabbath I addressed the Monthly concert of the M.E.C. Sabbath here in behalf of the Freedmen, called on Rev. G.H. Atkinson Pastor of Congregational Church to see if he & Church could not do something more than they had done, he said he would not, as they had the Chinese on their hands. I have greatly well roused our people through the Methodist Conference which set at Eugene City last, a great prejudice

exist against them. I was well pleased to state what each Society had done for the Freedmen South. A great deal of which is in the way of collecting here & my my heart bleeds. Bro. Stevenson gave me an abundance of encouragement here as a Colporteur here, or call & study the best encouragement South. So here I am again on my way, at my own expense leave here to night for San Francisco by Steamer, thence to Sacramento, thence P. R. R. to St Louis & so on to Nashville Tennessee N. B. Seeing you prefer employing men & paying them, rather than employ me for nothing, you are at liberty to do so. I will withhold my funds, & have revoked my Will relating to your Society. My Interest is not abated in the least degree towards the Freedmen I know I erred when I was with you, & who is without fault. I trust I have repented long ago, & have been forgiven. My sincere respects unto all of the Officers of your Society, but a double portion unto Brother Sibley & Whiting they have always been pleased with me

Eugene City Lane Co. Oregon. Nov. 30th, 1864.

Mr. Whitings, Dear brother, It will doubtless seem strange to you for me to address you from Eugene, when my wife, informed you I was at home. A Mysterious Providence drove me from. On the night of the 26th of last month, between the hours of Eleven & Twelve & Thirty, Morrison. Five — Three Five in M. with Six horses robed, off over in white. Made me a call in Jersey Co. Tenn. The men, dressed in various costumes some like Indians, others like Negroes. Mr. Masters & The Leader came into my bed, asked for my name; when given, I asked him Mr. Five-Three-X. Got up to see our visitors. I beheld 4 besides himself. I approached the gentlemen, requesting an introduction, this was Mr. Five-Three-X & Mr. Geddings & each & another in turn, as though the respite of death it off. Commanded me, to go out with them, I hesitated, they forced me out, when out I showed no resistance, they marched me into a piece of woods about ½ mile commanded a halt. Here they accused me, of Instilling Insurrection into the hearts of the Negroes at Lindon Jersey Co. Tenn. Some 3 weeks before. At a Public — Meeting of the

labored People there. I did endeavour to instill Industry, Economy, & Education in the highest Degree, into them. Several Intelligent white men, were there to hear me. I informed them what the various Benevolent Societies had done for them Viz. Education, the past year. And knowing of the Children of their Race, had attended School & Home-many remained untaught. Thereby I encouraging them to send their children to School. I had just visited Fisk University Nashville Tenn. I spoke of it in the highest terms, Read a Handbill from there, gave several copies unto them, advising them to send their children there. This Speech came very near costing my life, (although not more than ten hours in length.) That was all they had against me.

One held up a Pistol saying you must leave within 24 hours, or you may feel that. I began to, they asked what hindered you in going in 24. I replied I have loaned, some money want time to get it. They granted it, saying "See you do not go beyond that time."

On my hurried flight, of Forty Eight-hours, where I had Deposited some Money for safe keeping. I called for my money, behold $120. in Gold was missing also, Ten Dollars in currency. They expressed sorrow. Said I am sorry it happened here."

So you see, I have been betrayed by supposed friends, as well as foes. Un-Blessed & Blessed.
This is a country, where a pamphlet was in circulation, stating the Negroes did not possess a soul, sprung from the Orang Outang species of animals. This is great mercy of the lower class of whites who profess to believe. I was told by them I should be Un-Blessed long before 8 years.
In four days travel by horse-back, from Greenville, where I left the boys, into London County, Tenn. I did not see one good dwelling house. Nearly all built of hewed-logs, so old they seemed as though would fall down, for age, not more than one in fifty, with a glass window in them. Not a Meeting-House with glass windows in them any where, only log benches & benches. All built of hewed-logs, very few chimneys, or stoves in them. Although all, or nearly so, of the inhabitants seemed to have plenty of this World's goods. Land worth from $40. to 50, Dollars per acre. Have horses & cattle in abundance.
Drove home by force & of arms, Un-Blessed & Blessed.
N.B. My order for the Freedmen is not in the least diminished. I returned on the 23rd Sept. Have all the time been contriving ever since my return, how

Sir I send this day to your order a money order for Thirty dollars which please apply to the purposes of the A. M. Association. I would like to become a life-member of the association, as I believe I am entitled to do by Art. III of its constitution. —

I am a teacher, and am much interested in the progress of education at the South, also in the work among the Chinese. There are three Japanese among the scholars in connection with Pacific University, in which I teach, and they are of excellent promise, and one at least is I believe a Christian. The state of public opinion in this region and the State laws also are very bitter against the Chinese, not quite so much so toward the Japanese.

Dear Brother Whipple

I wish again to make a donation to your Soc. which in its gigantic work need all the aid Christian can give, aside from other pressing calls.

I have been in this far city of the West, nearly 9 months, & in that time have learned much of the people, & their wants. There is a great work to be done here, & the ministers with whom I am acquainted, labor hard in their profession, & I should like to have you add to your list of Life Members in consideration of the $100 enclosed, the Rev Dr. A. L. Lindsley, Rev Geo. Burton, & Rev John Rosenburg. The first is my pastor, the other two are Episcopal clergymen, & very good men, having charge of different churches here. I think a certificate of membership, & the regular receipt of one of your publications, will interest them in your Soc., & may be the means of good to the cause

This cause has been so dear to the heart of my dear husband & myself, for so long, that I do desire to do something to promote it on this coast. Dr. Dudley was a resident of your city until within the last three or four years, & has a very lovely family, who will doubtless exert an extended influence for good on this Coast. Some of his children are grown, & his sons have engaged in the active duties of life. His congregation is the largest in the City except the methodist, which is the most numerous, & influential denomination in Oregon.

I love that you & your dear family are in the enjoyment of health, & prosperity, & that you may be greatly blessed in your labors for the poor, for whom Christ died, I remain as ever

Dear Sir —

I have delayed writing you a long time as I wished to be well in work, so as to write of something that might interest you.

You probably perceive from the date of this that I am far from San Francisco. Mr Kimball thought a teacher was very much needed here & as he desired me to come to this point I readily consented. Still California was my choice.—

This is my third week of school. I opened with four scholars only. I then went

this week, prefer coming most to celebrating. They are all heathen, still they seem to take great pleasure in learning of the God whom we worship & I think I have gained an influence for good over them even in so short a time, as they are so much attached to me & seem so much inclined to do right. They each pay me 25¢ per week for attending day-school - also the same for evening.

There is another school in the place besides mine, which is free. It was opened over two years ago by the Episcopal Bishop. Mr. Kimball did not know of it, when he sent me here.

I opened a Sabbath school last Sunday. There were ten present. I am in hope

that after next week my
schools will be full, so that
I can have all I can do.
I shall be happy to hear
from you. My mail is directed
here in care of A. Taylor.

about the place & called on the Chinese merchants & when I made known my object they assured me I should have a school & confirmed their word by sending me eight for a day school & increased my number to eighteen in the evening. This week the Chinese are preparing for their New Year & they are so very busy that it has affected my school so that I have but five in the day time & ten in the evening. I have expected that next week would be so universally kept by them that I would be unable to have a school but I find that those who have been in school

Dear brother Whipple

Your favor of the 29th ult. came to hand just as I had finished reading the July No. of the Missionary, which is one of the most interesting publications I read. Your letter was handed me in bed, where I have spent a great deal of time during the last six months. I have had an affection of my foot, & what walking I have done, has been on crutches. I am improving now, but cannot walk yet. To say that I am, & have been anxious to send you a donation, but feeble expresses my wish. I have been feeling that I must, & your letter decided me at once to ask my sister. I have been very unfortunate in my business since coming to this Coast & have lost a great deal, so that while in the strictest sense

of the word I am not poor, as I have every thing I need, except money. I have unsaleable property that is valuable, ~~or~~ would be available were it not for the stringency of the money market, which affects us here quite as much as it does in the east. Taxes, & necessary expenses, consume my income, & hence I can not do what I wish for the many causes that have hitherto been so dear to my heart, & that of my lamented husband.

My daughter Stella (Mrs Sexton) who is a widow, & an invalid son, constitute my family at present, tho I have a married son living in Portland, my youngest & very dear. A devoted son he has ever been.

Mrs Sexton joins equally me, in this little donation to your society, & would it were ten times as much, & I pray our Father that he will open the hearts of all who have the means to come to your help at this time of need. This Centennial year should be one of great deeds, to show our love & gratitude for the many, many blessings bestowed.

I can never think of our missing your visit to Ohio dear brother, without great sorrow. But if we are faithful, we shall soon meet where there will be no more partings. I am dissatisfied with the little I am doing for Christ, & feel that it matters little how soon my time comes to go hence, but I trust you may remain a long time yet, to aid these poor ignorant, & long oppressed people to a knowledge of the truth, of their own rights, & duties.

There is a great work to be done here for the Chinese, & there are a few who are doing their best, but there is a great work to be done for the young men of every class here. The drinking saloons are the the terrible enemies to all good & they flourish when every other business languishes.

Excuse this long letter. I know how precious is your time, & I have hesitated to trespass

May our Father bless you, & your work, is the prayer of your unworthy friend

A. M. Bancroft.

P.S. Dear Brother — July 19/76

We are at work to establish churches. It is a slow process. When this is done we hope for more helpers for the great missionary work which confronts & presses upon us. Meanwhile let the older churches give & pray for the Home & Foreign Missions, which commingle on our Pacific shore. The cry against the Chinese, which seems an instinct of self preservation, will give place we believe to a more thoughtful study of all the facts, & to a wise use of the providential opportunity to do them good as our best security against harm from them.

Portland Aug-11- 1876

Rev. S. Whipple D.D. - Rev. Mr. C. Darby
Sec. A. M. A. Dear Brethren - I enclose two copies of the Oregonian viz- May 5, Aug-5- & Aug-11- to you, containing articles of mine upon the Chinese question. Two of them were put in as editorials. Mr. Sargent's speech in the Senate was on May 2d or 3d. It was telegraphed in summary on the 4th. On reading it I was moved to reply, & did so on that day. Since then the subject has been up until the wise plan is adopted by Congress of a Committee to investigate.

In the articles of Aug-5- & 11- I give the facts & views of many thoughtful and good men here. I find that the first article in part arrested the wild mob spirit, which was rising against the poor Chinamen. The article of Aug. 5. has been carefully read and its facts & inferences are pondered by men in business & in political life, with earnest interest.

What the article published this morning will do I know not.

The Oregonian has the largest circulation of any paper in the State, between 3000 & 4000 in all. It is read by thousands, who do not take it.

Your noble work among the Chinese (in California, like your work for the enslaved negroes, rises to the dignity of a national and even an international question. While you aim to save souls, you insure interests of commerce & extend the ideas of personal freedom. You make plain that the gospel ("godliness) is profitable for the life that now is and for that which is to come".

The enclosed articles are at your service, if you find occasion to use them as a whole or in part, I hope we can do more for you in the future.

Yours fraternally,
G. H. Atkinson

Dear Sir —

✓ R.D. Feb 15

I enclose a money order for Thirty dollars sent by Mr. Alvin T. Smith to constitute himself a life member of the American Missionary Association. The money order is drawn in my name, but the money is from him. Please send him a certificate of membership and the current numbers of the "American Missionary."

✓ My "Missionary" for January miscarried somehow. Please send another.

✓ Dr. Wm. Geiger of this place is somewhat interested in the work of your Society, a few papers sent to him would probably be very well applied. The report of the last Annual Meeting has especially interested

some to whom I have shown it.
If you have extra copies of it for circulation I could use a few.

Greeting: Enclosed please find one dollar for two copies of the "American Missionary", beginning with the Jan. Number for 1874.

Direct one copy to "Rev. J. S. Griffin, Hillsboro, Oregon." The other copy to, "G. W. L. T. Rooms, Portland, Oregon".

If Atwater is still with you in the labors of the "Association", remember me kindly to him, as a brother associated with him long ago in debating club at Wooster Ohio in 1835 & 6, and for years at Oberlin.

Just here I may be excused in rehearsing to him & his fellow laborers a ruse I engaged in while I was teaching the only school then in Wooster his native village. Forty two years since.

Finding myself terribly abused

in my school because I was of Anti-slavery principles; and, knowing it was only because my school was favorably regarded, that I was escaping open mob of the worst discription; and, knowing the enemy would find it more to their discomfiture to mob the citizens of the place, rather than myself a stranger; I determined to make Anti-slavery men out of their own citizens upon which to vent their spleen; and, in such a way that my hand should not be seen, and myself out of the place at the close of my school before the mob should break.

Stiboy was then a member of Western Reserve College, a pro slavery institution, and just then spending a long vacation at his father's, who was the jeweler of the village.

I was versed in the special process by which Anti-slavery had already

taken deep root in many parts of the State of N. York, where for years before I had been in study. This was by suffering slavery to get into debating societies, only for the purpose of discussion; not knowing it was the way God had chosen to set men's souls on fire for suffering humanity.

With this introduction, now to the "use", which consisted in taking ~~per~~ such part with young gentlemen of the place in talking over the advantages of debate, as to get from it a society, which resulted in a very dignified enterprise of the kind.

The first question, "The merits of the Wolverene war", then in the North West part of the state. Second question, "The merits of Harrison as a candidate for the presidency." We were now fairly under way, & I was through with my school & off, indulging in an occasional laugh to myself, on my way back to Oberlin, over the warm work I knew I was soon to hear from mob violence

in Wooster, for I knew, just for this reason sake, slavery would ere long come under debate, when the "fat would be in the fire". Soon of course, here came the news, that Wooster was a cauldron of Mobocracy; and that Strieby could no longer endure to be a student of a proslavery institution; but in great grief for the dishonor of his beloved village, in connection with one esquire Hamilton, (a very worthy gentleman from some vicinity,) came soon to the then most hated of all hated institutions, Oberlin.

Of course, from that time forward, Strieby was an Abolitionist "dyed in the wool".

Excuse my story touching days "of long ago", & that tried men's souls; and believe me a sympathizer in the labors of your society; and, as missionary of nearly forty years in "a land of darkness itself" as darkness itself", the North-West coast of America, I subscribe myself your friend and co-laborer in the cause of God & humanity. J. C. Griffin.
